Here at ASUS, we are proud to provide the integral services that truly empower our nation’s military communities, from the ground up, literally. With our smart infrastructure systems, we create and maintain the efficiencies that allow installations across the country to focus on their own true mission. Ours is simple: To continue building upon their strength as effectively as possible. We achieve this goal by always putting our fundamental ideals into practice. First, we concentrate on maximizing the effective use of natural resources while minimizing our impact on the environment. Whether that means identifying and reducing costs or engineering innovative solutions to site-specific problems, we are constantly committed to this high standard of efficiency. Second, we ensure every installation itself is operating as effectively as possible, utilizing real-time system analyses and encouraging open communication between operations.

Finally, we pay special attention to the ultimate measure of success: Our customer’s peace of mind. With our own team’s deeply rooted military background, we have an intimate understanding of what it takes to make an installation thrive, and we take pride in delivering unparalleled care in this regard. AT&T Inc.

Company Web Address:

Company Main Phone Number:  
214-757-4656

Description:

As the first truly modern media company, AT&T has been changing the way people live, work and play for the past 144 years. It started with Alexander Graham Bell’s telephone. Since then, our legacy of innovation sparked the invention of the transistor – the building block of today’s digital world – as well as the solar cell, the communications satellite and machine learning.

Throughout its history, AT&T has reinvented itself time and time again. Most recently, the company added WarnerMedia to reshape the world of technology, media and telecommunications. And the two companies are no strangers to making history together. In the 1920s, AT&T built technology to add sound to motion pictures which Warner Bros. then used to create the first talking picture, The Jazz Singer.

For over 100 years, WarnerMedia and its family of companies have redefined how audiences around the world consume media and entertainment. It launched the first premium network in HBO and introduced the world’s first 24-hour all-news network in CNN. WarnerMedia continues to deliver popular content to global audiences from a diverse array of talented storytellers and journalists.

Today, we’re shaping the future with premium content, high-speed networks, direct-to-consumer relationships and an advanced ad technology platform. AT&T and its employees are united by a shared desire to inspire progress and change the world for the better.

Description:

Founded by Taya Kyle, the Chris Kyle Frog Foundation was established to create a legacy of service that honors her husband, American Sniper Chris Kyle. The mission of the Chris Kyle Frog Foundation is to honor God, country and families who serve by providing experiences that strengthen military and first-responder marriages and families. Some jobs are simply more challenging than others and those jobs demand greater sacrifice and service. Too often, the family support network for those serving our country — either as a member of our armed services or as a first responder — can be overlooked or forgotten. As a nation, we are beginning to discuss and understand how a life of service and sacrifice can negatively contribute to frayed marriages and fractured families. Together, our work is creating a positive effect for those families by providing much-needed support. At CKFF, we do not believe serving your country or your community should mean sacrificing your family. CKFF envisions a connected community of military and first responder couples and families that are happy and healthy despite the extraordinary challenges demanded from them. We want these marriages to do more than merely survive; we want them to thrive.

Racing toward the millennium, Comerica experienced extraordinary change. This began in 1992, when Comerica merged with in-market rival Manufacturers National Corporation. As Comerica carved a niche for itself in Detroit through the years, Manufacturers proved a worthy competitor. Both banks were nearly equal in assets and employees and had enjoyed great success. However, the banks’ CEOs recognized the emerging era of rapid consolidation in banking and their own vulnerability to takeovers. The merger of equals between Comerica and Manufacturers was a major achievement.

With the merger, the Comerica name remained, inserted into the familiar blue trapezoid of Manufacturers to form a new logo for a new Comerica. Manufacturers’ chairman and CEO Gerald V. MacDonald became the combined company’s first CEO. With the merger, Comerica became the country’s 25th largest bank holding company, with assets in excess of $20 billion. Comerica has continued to demonstrate its commitment to the communities it serves through our strong culture of diversity and inclusion, community involvement and environmental commitment. Comerica has been recognized as one of the most community-minded companies in the nation by Points of Light, earned a Top 10 ranking in Newsweek’s list of America’s Most Responsible Companies and ranked among the DiversityInc® Top 4 regional companies for diversity.

Comerica ushered in a historic milestone in 2019 with the celebration of its 170th anniversary. Comerica’s longevity has earned it the distinction as Michigan’s longest serving bank. It was only fitting that Comerica’s 170th anniversary mark the final year for Babb. Babb, who played a pivotal role in Comerica’s success, announced his retirement at the end of 2019 and named Curtis C. Farmer chairman, president and CEO.

Comerica’s longevity is a testament to its strong relationship focus, conservative principles, and dedicated workforce – the more than 7,800 colleagues who serve as Comerica’s ambassadors in the community.

Competitive Edge, better known as Corporate Gray, provides companies with a variety of ways to recruit members of the military community — through print advertising, job fairs and online. Employers, schools and service organizations can use print advertising to communicate their career opportunities in The Military-to-Civilian Transition Guide, which is now provided free to everyone leaving active duty in Washington, D.C., Maryland and Virginia. The book’s sponsors include Fortune 500 firms, small businesses, government agencies and educational institutions.

Companies can attend Corporate Gray Military-Friendly Job Fairs in Northern Virginia and Virginia Beach to meet face-to-face with transitioning military members, spouses and veterans. There are eight job fairs each year, which are free to candidates and open to all members of the military community. Featuring dozens of companies and hundreds of candidates, these job fairs connect job seekers with companies that have local, regional, nationwide or worldwide job openings.

Corporate Gray Online, a military-focused website, provides recruiters with 24/7 access to search resumes and job postings in order to recruit members of the military community. Job seekers can post resumes and search for employment opportunities at no charge.

At Deloitte, we are continuously evolving how we work and how we look at marketplace challenges so we can continue to deliver measurable, sustainable results for our clients and our communities.

We believe that we’re only as good as the good we do. All the facts and figures that talk to our size and diversity and years of history, as notable and important as they may be, are secondary to the truest measure of Deloitte: The impact we make in the world.

So, when people ask, “What’s different about Deloitte?” the answer resides in the many specific examples of where we have helped Deloitte member-firm clients, our people and sections of society to achieve remarkable goals, solve complex problems or make meaningful progress. Deeper still, it’s in the beliefs, behaviors and fundamental sense of purpose that underpin all that we do.

With more than 150 years of hard work and commitment to making a real difference, our organization has grown in scale and diversity—approximately 245,000 people in 150 countries and territories, providing audit & assurance, tax, legal, risk and financial advisory and consulting services—yet our shared culture remains the same. For us, good isn’t good enough. We aim to be the best at all that we do—to help clients realize their ambitions, to make a positive difference in society, and to maximize the success of our people. This drive fuels the commitment and humanity that run deep through our every action.

That’s what makes us truly different at Deloitte. Not how big we are, where we are, nor what services we offer. What really defines us is our drive to make an impact that matters in the world.

- An internal database of more than 27,000 veterans and family members  
- A vast network of government, nonprofit and veteran service organizations who have partnered with us to reach an audience unavailable to most employers  
- Free consultation on the development or enhancement of a military recruitment program for our employer partners  
- Continued candidate support post-hire  

We offer veterans and family members:  

- Free career coaching and employment counseling  
- A full curriculum on the skill of job search on our eLearning platform  
- Assistance with resumes and interviewing  

The VSN builds a bridge between veterans and employers, providing the support that each individual needs in order to succeed. To date, we have provided support to more than 12,000 veterans and family members as a result of our successful veteran placement services. Our employees are themselves veterans, many of them service-disabled veterans. We walk the walk and talk the talk. We are veterans serving veterans.

Family-owned and community focused since 1976, Jason’s Deli serves guests at close to 200 corporate delis in multiple states. Around here, a lot of thought goes into what we put in our food, and what we take out of it. We were one of the first restaurant groups to remove artificial transfats from our food. Since then, we have eliminated:

- Processed MSG
- High-fructose corn syrup
- Dyes
- Artificial colors
- Artificial flavors

If we wouldn’t serve it to our families, we’re not going to serve it to yours. We set the standard for our niche and we continue to work hard to give our employees and customers the appreciation they deserve! Customers think of their local Jason’s Deli as “my deli,” a place where they are proud to bring family and friends while enjoying a great meal. Our purpose is to improve the lives of others through nourishment of the body, mind, heart and spirit. Our mission is to make every customer happy.

Magellan Federal

Company Web Address: https://www.magellanfederal.com/

Company Main Phone Number: 703-379-9311

Description:

Magellan Federal (a registered d/b/a of Armed Forces Services Corporation, AFSC) is a market leader providing high-impact, innovative and cost-effective solutions to the nation’s most demanding human needs. With headquarters in Arlington, Virginia, we have over 1,400 workers in 52 states and territories and 14 countries. We are known for our deep commitment, extra effort and constant innovation every day working to provide management consulting and program delivery to many of the most vital government programs serving the military and civilian communities.

Our teams span from focused strategic planning engagements to very large programs focused on operational services such as adjudication support and broader case management functions. We have deep experience in the full spectrum of quality-of-life programs serving the military lifecycle — including health care, resiliency, suicide, family strength, education, employment and financial/legal support. Our expertise has been recognized by several White House Administrations, Congress and throughout the DOD and VA. We also support many of the nation’s largest military nonprofit organizations — contributing thousands of hours of pro bono consulting back into the nonprofit sector from which we sprang. Our legacy goes back to 1879 with the formation of a nonprofit organization, Army Mutual Aid Association, AMAA, established to care for surviving spouses from The Battle of Little Big Horn. Before there was a Veterans Administration, AMAA was working to make sure veterans and their families were cared for.

In the year 2000, the company was spun off as a separate organization owned by disabled veterans, with a mission to expand our services and bring our special skills and commitment to serve the government’s most critical human needs. In 2016, Magellan Health, one of the nation’s largest health care companies, purchased AFSC to create Magellan Federal, a team fully dedicated to serving the federal market providing health care and human services that ensure maximum “whole-life” health and productivity for the military, federal employees and federal program recipients.

Today, we operate as a wholly-owned subsidiary of Magellan dedicated to improving the lives of service members, veterans, families, civilian federal workers and federal program recipients.

Description:

Patra Corporation was founded in 2005 on the idea of providing insurance organizations — including retail brokers, wholesale brokers, general agents and carriers — cost effective solutions to the increasing burden of time-consuming operations. Its clients find reductions in labor costs as well as errors and omissions exposure while seeing increases in top-line growth by allowing brokers to focus on higher value activities. The company has serviced the insurance community for more than 14 years, working with many of the leading insurance houses. It thrives to be the best; and does a great job with providing processing and account services in the insurance industry as well as working with technology! The company operates both domestically and internationally. Patra employs more than 2,700 employees globally with a major part of the operations located in India — where our employees are providing back office insurance administration. In the U.S., the company takes pride in its work-from-home culture. It has an innovative approach, hires good people, and has proven results. From experienced insurance professionals seeking a flexible work-from-home position to inexperienced military spouses who want to learn the business, Patra is flexible and always seeking new approaches to improve service and its customers’ experiences.

At Pet Paradise, our mission is to enhance the quality of life for pets and our customers by providing exceptional pet care, outstanding customer experience and a fulfilling work environment. Pet Paradise Resort is a comprehensive pet care provider offering boarding, day camp, grooming and veterinary services.

Pet Paradise Resort and Day Spa® founder Fred Goldsmith was looking for the perfect place to board his Bichon Frise, Samantha. After researching his options, he realized there was a serious need for a boarding facility that wasn’t sterile, intimidating, and boring—one that could give him peace of mind while relieving Samantha’s intense separation anxiety. With a focus on giving pet parents access to all the premium care, they need to give their furry family member the happiest, healthiest, longest life possible, the Pet Paradise brand has grown to offer resort-style pet day camp and care, professional pet grooming, low-stress veterinary care, and of course, overnight boarding that feels like home, all under one roof. Pet Paradise can now be found in more than 50 locations throughout the U.S. and HQ located in Jacksonville, Florida. In addition to keeping pets healthy and happy from Phoenix to Fort Lauderdale, Pet Paradise is passionate about shaping a new kind of pet care—the kind of complete pet care that centers around making sure you’re meeting all of your pet’s needs, from annual vet visits and vaccines to daily exercise and playtime, socialization, lots of snuggles, and more — so they can live their best life at every age and stage.

We are dedicated to adult students who need flexibility to fit learning into their busy lives, making it possible to achieve a degree from the respected Purdue University system — from anywhere in the world.

The Purdue University system serves students through its flagship campus in West Lafayette, a network of regional campuses and technology centers across Indiana, and now Purdue Global, which can be accessed online at any time.

Purdue’s main campus in West Lafayette is one of the most prestigious research universities in the world. It routinely ranks highly in accredited national and world university rankings like the Wall Street Journal/Times Higher Education for its distinguished academic programs.* These rankings demonstrate Purdue’s commitment to providing a higher education at the highest proven value.

In April 2017, Purdue reinforced its status as one of the world’s most innovative universities by announcing it would acquire Kaplan University, a longtime leader in online adult education, and create a new, public institution — which is now Purdue Global.

855-466-6042

Description:

R. Riveter is an American success story, Shark Tank winner and handbag company on a mission to empower, inspire and connect military spouses across the nation. The company began four years ago in a small attic, in a tiny mountain town called Dahlonega, Georgia — home of the Appalachian Trail, moonshine and the 5th Ranger Battalion. Armed with a sewing machine and a little bit of canvas, military spouses, friends and R. Riveter co-founders Cameron Cruse and Lisa Bradley set out on a mission to solve employment struggles military spouses often face. Now, employing military spouses across the country to produce quality handbags and purses, R. Riveter has grown into a bold and achievable mission shared by many — to inspire, engage and empower. From evening clutches and functional cross-body bags to large totes appropriate for work or travel, R. Riveter crafts handbags for every occasion. The company also created Post to Pillar, a curated marketplace for military spouse makers, both in stores and online. Products in the marketplace range from home décor to accessories, and continue the R. Riveter mission.

“R. Riveter is more than just building our own products using military spouses. Our goal is to develop and expand the entire military ecosystem. It’s a growing and vibrant entrepreneurial community that can change lives. I’m proud to be associated with them.” - Mark Cuban, Shark Tank investor

Founded in 1948, Robert Half is the world’s first and largest specialized staffing firm and a recognized leader in professional consulting and staffing services. Back in 1986, the idea of the professional-level temporary was still untested, as the industry was primarily made up of generalist staffing firms placing clerical and light industrial workers. Believing that companies would be open to temporary workers at higher skill levels, Robert Half launched a series of new professional staffing divisions, each of which has grown into highly successful businesses. In later years, other companies saw the value in this approach, and professional level staffing is now the fastest-growing segment of the staffing industry. In Robert Half ‘s 70-year history, the company has built a stellar reputation for high ethical standards, a specialized focus and unparalleled service.

Salute Mission Critical

Company Main Phone Number:
810-895-2074

Description:

Salute Mission Critical transforms veterans and their spouses into world class data center professionals and, as a result, is now a premier IT Data Center Lifecycle services company. Clients around the world rely on Salute to deploy, manage and decommission data center sites with consistent high-quality results. Our ability to recruit, train and support our teams is unique and applied in a highly effective manner to fulfill our client’s requirements globally.

Founded in 2013 by Lee Kirby and Jason Okroy. This dynamic pair, with a wealth of experience in both the military and commercial IT operations, brought their unique perspective, to tackle two equally urgent problems. First, veterans who were returning from deployment struggled to find civilian jobs. Second, an entire industry unable to find both entry-level and skilled staff who could perform reliably in a mission-critical environment.

Lee and Jason saw an opportunity to address both problems in one master stroke, Salute was born, with its mission to recruit and train veterans and their spouses in all of the processes and tasks required to deploy, manage, secure and decommission data centers. Since then, more than 1,500 veterans have been introduced to the industry by Salute, and many leading data centers have benefited from the discipline and integrity that is ingrained in these personnel from their time in the military. The dedication and skill that Salute’s teams provide have helped data centers through their development and beyond, as these services are available through all stages of the data center life cycle, both in the U.S. and around the globe.

Our Mission Statement
We provide outstanding gear and exceptional service to inspire outdoor memories.

About Sportsman’s Warehouse
Whether your passion is hunting, fishing, camping, backpacking, or shooting, it’s important to have the right equipment when you head into the great outdoors. Quality gear gives you the edge you need to perform well and enjoy the journey. That’s why Sportsman’s Warehouse carries only top-quality, brand-name products for the outdoor enthusiast.

Since 1986, Sportsman’s Warehouse has been providing outdoor enthusiasts with quality merchandise in a friendly, low-key shopping environment. When you combine wide selection and great prices with knowledgeable, expert employees that are eager to assist you, there’s really no reason to shop for your outdoor needs anywhere else.

Providing a unique shopping experience is only the start at Sportsman’s Warehouse. We are members of the outdoor communities we serve, so we take every opportunity to be actively involved in enlightening and educating our customers through special events, classes, seminars, and expert presentations. No matter what your level of expertise, you’ll find a wealth of information to help you expand your horizons, develop your skills, and gain even more enjoyment from your outdoor activities.

Take the time to get to know your local Sportsman’s Warehouse. We’re more than just a store – we’re your outdoor adventure partner, so be sure to take advantage of our friendly experts, quality gear, and down-home attitude. You’ll be glad you did.

Who Are We?
In a very real way, we are our customers. Our stores are staffed by locals who have knowledge about the products we sell because they use them on their own outdoor adventures. We don’t rely on commissions or high-pressure sales tactics, because we want our customers to know that they’re buying the right products for their needs. In short, we applied for these jobs because we love this stuff, and we get hired because that love shows whenever we talk about it. Some of us have specialized niche knowledge, others seem to know a little bit about everything, and all of us like to hear and share new stories about the great outdoors. Many of our employees have been with the company for 10, 20, or even 30 years. It’s not uncommon for a person to start in an entry-level position in one of our stores purely as an extension of their interests in the outdoors, only to find themselves rising through the ranks and building a long-term career with the company. Happy employees make for happy customers, and we enjoy the friendships we find not only with our coworkers, but with the customers we get to meet every day. We don’t just sell this stuff, we live it.

Our Core Values
We’re committed to being good stewards of the outdoors and wildlife habitats. Sportsman’s Warehouse supports the communities we serve by donating to local causes and partnering with wildlife and conservation groups like the Mule Deer Foundation, NRA, National Wild Turkey Federation, Rocky Mountain Elk Foundation, and Ducks Unlimited, among several others. Many of our employees are also contributing, active members of such groups, volunteering their own money and time for the causes we collectively cherish and believe in.

Description:

SRS Distribution Inc. consists of a family of industry-leading, independent roofing distributors with a common goal and purpose: to focus all of our efforts on serving the professional roofing contractor. SRS is a private company sponsored by Leonard Green & Partners and Berkshire Partners and led by a management team of industry veterans who understand the needs of the professional contractor.

SRS has grown rapidly through acquisitions and the opening of multiple new locations since the February 2008 inception — more fully detailed in “Our History.” This continual growth has established SRS as one of the fastest growing building products distribution companies in the U.S. SRS enjoys strong investor and banking relationships and a solid balance sheet to enable us to remain a high-growth company in the years ahead.

The goal of SRS is to form the strongest national network of independent roofing distributors with the most talented team of people working together to deliver the industry’s best products and services. In addition to our commitment to customer focus, SRS strives to become the preferred employer in the industry with highly motivated and engaged employees operating in an entrepreneurial culture where the corporate office works for the field and not the reverse.

SRS also aims to become the most attractive distribution partner to our many valued suppliers by forming collaborative relationships built on trust and friendships that date back many decades. SRS has a very narrow product focus with roofing making up almost 95% of sales. This focus allows us to enjoy a broader and deeper inventory of roofing products at each location than many of our competitors. We have the capabilities and equipment to deliver any product you need, where you want it, when you need it.

Mission: To inspire and nurture the human spirit — one person, one cup and one neighborhood at a time.

Career opportunities: We believe veterans and military spouses make our company better and our communities stronger. In 2013, we committed to hiring 10,000 veterans and military spouses by 2018. We reached that goal two years ahead of schedule. In 2018, we increased our commitment to hiring 25,000 veterans and military spouses by 2025. We exceeded that goal and hired 25,000 veterans and military spouses six years ahead of schedule. And we’re not stopping there. Moving forward, we aspire to hire 5,000 veterans and military spouses annually.

View our U.S. and Canada career map:  

Our commitment extends beyond hiring. We’re offering expanded benefits, including education opportunities. We have also opened over 70 Starbucks Military Family Stores across the U.S., and plan to dedicate 60 more by 2022. The Heritage Bank is a community bank operating in Southeast Georgia offering complete financial services to our market. The Heritage Bank was founded in 1911 and was originally named The Hinesville Bank. The early 1940s brought much change as the area was chosen for a new anti-aircraft training facility. This tiny new post grew into Fort Stewart during the 1950s and proved to be a dynamic part of the community. As the years passed, the bank maintained its client-focused service and recognized the need for additional facilities to allow for greater client convenience. Branch expansion began with the Fort Stewart Branch in 1968 and has been steady ever since. In 1997, The Hinesville Bank changed its name to The Heritage Bank to better reflect the different service areas. Since the early days, clients have counted on THB for sound financial management, great service and convenience.

The U.S. Trade and Development Agency connects America’s private sector to infrastructure projects in developing and middle-income countries. USTDA accomplishes its mission by funding feasibility studies, technical assistance and pilot projects that integrate the expertise and innovation of American companies. The agency also connects overseas buyers with U.S. sellers through its reverse trade missions, industry conferences and workshops. Unique among federal agencies, USTDA is mandated to promote the participation of U.S. industry in infrastructure projects at the critical early stages when design choices and technology options are being defined.

Driving improvements, delivering results: USTDA strategically facilitates export opportunities for U.S. companies and supports sustainable development in dynamic markets all around the world. In fiscal year 2019 alone, USTDA identified $6.7 billion in U.S. exports to emerging economies, resulting from programming that facilitated early-stage infrastructure development. During the most recent 10-year evaluation period, USTDA identified more than $111 in exports for every $1 it invested in its programming, a record return for the agency, the American people and U.S. jobs. Since 1992, USTDA’s programs have contributed to more than $73 billion in U.S. exports.
